

Native Plant Nurseries and native vegetation consultants for  
NORTHEAST MINNESOTA

Some nurseries on this list sell a mix of Minnesota native, non-native, or horticultural varieties of plants. Minnesota wildlife including pollinator species benefit most from Minnesota native plants because they developed together. To find out what is native to your area, visit the [DNR's MN Taxa Plant lists](#) or the [MN Wildflowers website](#).

Company	Upland Perennials	Aquatic Perennials	Shrubs and Trees	Bee Lawns <sup>1</sup>	Products and Services

<sup>1</sup>- Bee lawns typically include non-native species like red clover that primarily support honey bees, but could also include native species like purple prairie clover that support some of Minnesota's wild bees. Minnesota has over 460 species of wild bees all playing a unique role in the ecosystem and they rely on a diversity of native wildflowers and grasses that bloom all season long.
